assistance amounting to Rs. 165.98 lakhs was not released to the town.

In so far as the urban water supply sector is concerned, this Ministry considers water supply schemes under the Centrally Sponsored Accelerated Urban Water Supply Programme (AUWSP) of Government of India. Assistance is provided to the State Governments for providing water supply to the towns having population less than 20,000 as per 1991 Census, on 50:50 cost basis to be borne by Central and State Governments. Since population of Muzaffarpur town is more than 20,000 as per 1991 census it does not qualify for assistance under AUWSP. Moreover, no project proposal has been received from Government of Bihar for water supply and sanitation facilities in Muzaffarpur town during last 5 years either for seeking Life Insurance Corporation or external funding.
